Liquidity					
Liquidity coverage ratio	158.28%	156.16%	157.72%	156.71%	158.60%

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

1) Operating income before administrative expenses and depreciation are deducted.

2) CET1, Tier 1 and total capital ratios are based on the transitional provisions laid down in Articles 465 to 491 of Regulation (EU) No 575/2013 on prudential requirements for credit institutions and investment firms (the Capital Requirements Regulation).

3) "cb" refers to "cash balances at central banks and other demand deposits".

4) Stage 2 loans as a share of total loans and advances. Loans and advances at amortised cost (AC) and fair value through other comprehensive income (FVOCI). Cash balances at central banks and other demand deposits are excluded.

T01.01 Significant institutions by country and classification

(number of institutions)

Country	Q4 2025	Business model classification	Q4 2025
Belgium	5	Corporate/wholesale lenders	11
Bulgaria	1	Custodian and asset managers	6
Germany	27	Development/promotional lenders	5
Estonia	3	Diversified lenders	31
Ireland	5	G-SIBs ²⁾	7
Greece	4	Retail and consumer credit lenders	14
Spain	10	Small market lenders	13
France	12	Universal and investment banks	23

Italy	10	Total	111
Cyprus	1		
Latvia	3	Size	Q4 2025
Lithuania	3	Banks with total assets	
Luxembourg	2	Less than €30 billion	17
Malta	2	Between €30 billion and €100 billion	46
Netherlands	7	Between €100 billion and €200 billion	18
Austria	7	More than €200 billion	23
Portugal	3	G-SIBs ²⁾	7
Slovenia	3	Total	111
Slovakia ¹⁾	-		
Finland	3		
Total	111		

Source: ECB.

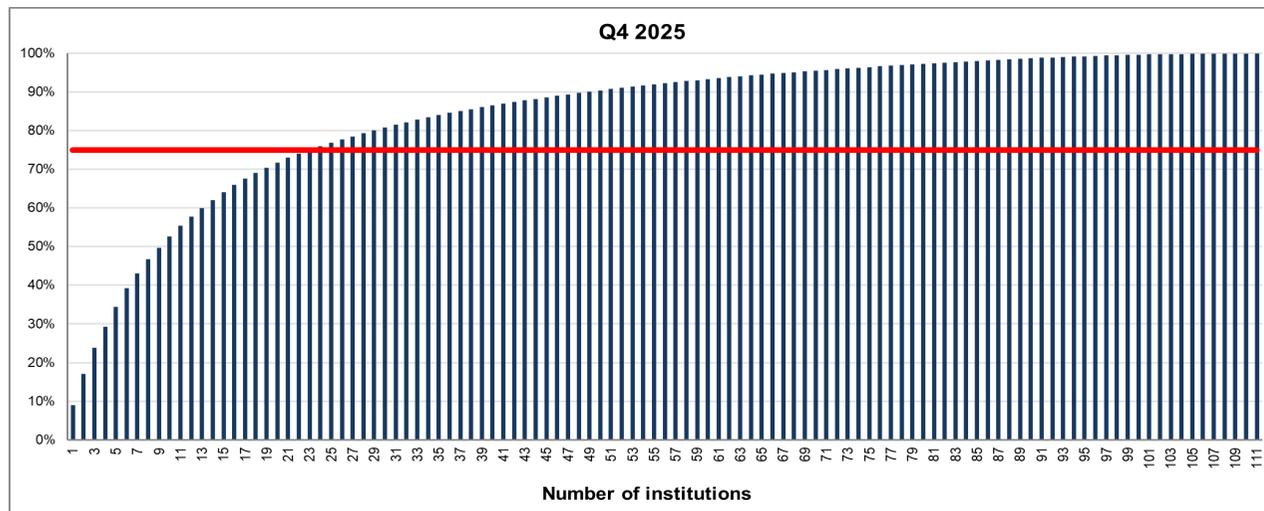

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, as well as mergers and acquisitions.

1) There are no significant institutions at the highest level of consolidation in Croatia and Slovakia.

2) G-SIBs: global systemically important banks. Data based on the last available list of G-SIBs as published by the Financial Stability Board.

T01.02 Concentration of total assets

(cumulative percentages of total assets)

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

The charts show the cumulative percentage of the total assets in the sample which is covered when the total assets of each institution, ordered from the largest to the smallest, are added. For instance, it is shown that the largest institution in the sample accounts for almost 10% and the 20 largest institutions represent approximately 75% of the total assets in the sample. The solid line in red corresponds to the 75th percentile.

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, as well as mergers and acquisitions.

1) Profit and loss statement figures may be based on different financial years. To increase consistency, if the end of the financial year is not 31 December, a linear projection of the figures has been made for each reporting period.

2) Figures reported are year-to-date.

3) Operating income before administrative expenses and depreciation are deducted.

4) Provisions include provisions for "commitments and guarantees given" and "other provisions".

5) Profit and loss before tax from continued operations plus profit and loss before tax from discontinued operations (included in "other").

T02.02.1 Key performance indicators by reference period

(percentages)

Indicator ^{1) 2)}	Q4 2024	Q1 2025	Q2 2025	Q3 2025	Q4 2025
Net interest margin (NIM)	1.60%	1.53%	1.51%	1.50%	1.52%
Cost-to-income ratio (CIR)	54.90%	54.85%	54.17%	53.98%	54.95%
Cost of risk (CoR) ³⁾	0.47%	0.55%	0.46%	0.47%	0.47%
Return on equity (RoE)	9.54%	9.85%	10.11%	9.88%	9.53%
Return on assets (RoA)	0.67%	0.69%	0.70%	0.69%	0.68%

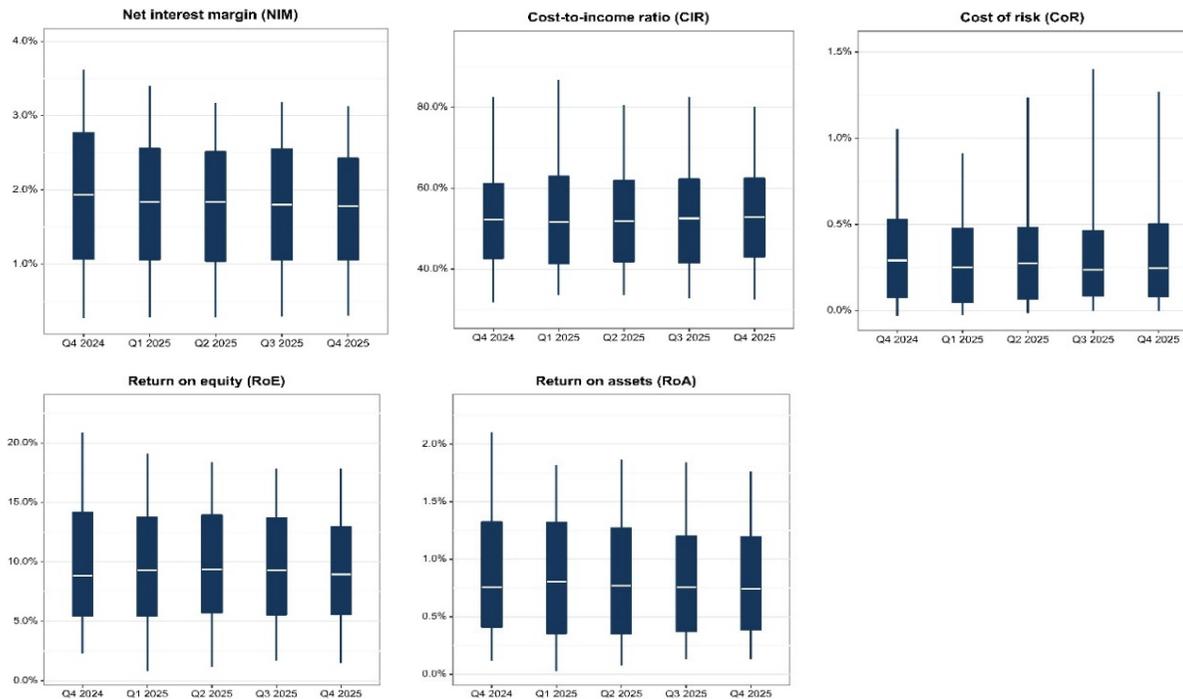

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, as well as mergers and acquisitions.

1) RoE and RoA are computed by dividing "net profit/loss" by, respectively, "equity" and "total assets" at the end of the corresponding reference period. The values of "net profit/loss", originally year-to-date, are annualised to increase the comparability of the ratios across quarters.

2) Returns figures may be based on different financial years. To increase consistency, if the end of the financial year is not 31 December, a linear projection of the figures has been made for each reporting period.

3) As set out in the list of definitions of ITS data points, the numerator of the cost of risk indicator is adjustments in allowances for estimated loan losses during the relevant period (annualised). Those adjustments may be negative in certain circumstances.

Total exposure	3,381,362.32	3,448,323.41

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. In accordance with the applicable regulation, reporting requirements apply to sovereign exposures where the aggregate carrying amount of financial assets from the "General governments" counterparty sector is equal to or higher than 1% of the sum of the total carrying amounts for "Debt securities" and "Loans and advances". Therefore, the sample of entities in the table may be smaller than the full sample of entities. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, as well as mergers and acquisitions.

C: the value is suppressed for confidentiality reasons.

1) Countries in the European Economic Area (EEA) not participating in the Single Supervisory Mechanism (SSM).

2) European countries not in the EEA.

3) RoW: rest of the world, i.e. all countries except European countries.

4) Institutions whose non-domestic sovereign exposures are less than 10% of their total sovereign exposures are required to report the exposure at a total and domestic level only. For such instances, the difference between the total and domestic exposures is presented in the row "Total non-domestic unallocated exposure and international organisations".

5) This table is based on Template C 33.00.a. Institutions are required to report this template twice a year only, in the second and fourth quarters.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available; only the banks that have to comply with the sovereign exposures requirement are accounted in the table.

C: the value is suppressed for confidentiality reasons.

1) Countries in the European Economic Area (EEA) not participating in the Single Supervisory Mechanism (SSM).

2) European countries not in the EEA.

3) RoW: rest of the world, i.e. all countries except European countries.

4) Institutions whose non-domestic sovereign exposures are less than 10% of their total sovereign exposures are required to report the exposure at a total and domestic level only. For such instances, the difference between the total and domestic exposures is presented in the row "Total non-domestic unallocated exposure and international organisations".

5) There are no significant institutions at the highest level of consolidation in Slovakia.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, as well as mergers and acquisitions.

1) Not all exposure classes are presented in the table.

2) ADC stands for acquisition, development and construction.

3) Up to and including Q4 2024, this includes retail exposures secured by real estate SMEs and non-SMEs. As of Q1 2025, this includes only retail exposures secured by residential real estate.

4) CCP stands for central counterparty.

5) SA stands for standardised approach.

6) IM stands for internal model.

7) Includes "additional risk exposure amount due to fixed overheads", "total risk exposure amount related to large exposures in the trading book" and "other risk exposure amounts".

8) Risk weights are calculated as the ratio of the risk-weighted exposure amount to the total exposure amount.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

C: the value is suppressed for confidentiality reasons.

1) Not all exposure classes are presented in the table.

2) ADC stands for acquisition, development and construction.

3) Up to and including Q4 2024, this item includes retail exposures secured by real estate SMEs and non-SMEs. As of Q1 2025, this includes only retail exposures secured by residential real estate.

4) CCP stands for central counterparty.

5) SA stands for standardised approach.

6) IM stands for internal model.

7) Includes "additional risk exposure amount due to fixed overheads", "total risk exposure amount related to large exposures in the trading book" and "other risk exposure amounts".

8) Risk weights are calculated as the ratio of the risk-weighted exposure amount to the total exposure amount.

9) G-SIBs: global systemically important banks. Data based on the last available list of G-SIBs is used as published by the Financial Stability Board.

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available; only the banks using Internal Rating Based approach to calculate their credit risk-weighted exposure amounts are accounted in the table. Where the conditions set out in the applicable regulation are met, the competent authority shall permit institutions to calculate their risk-weighted exposure amounts using the IRB approach. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, as well as mergers and acquisitions.

C: the value is suppressed for confidentiality reasons.

1) The countries shown in the table were selected based on the relevance of the aggregate exposure value of the SSM banks using the internal ratings based approach towards the obligors of those countries.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, as well as mergers and acquisitions.

1) Loans and advances in the asset quality tables are displayed at gross carrying amount. In line with FINREP, held for trading exposures are excluded.

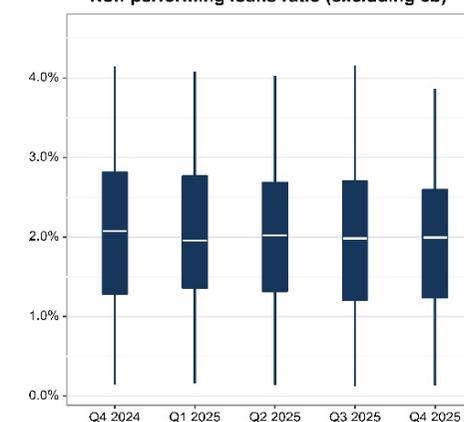

As of the reference period Q2 2020, cash balances at central banks and other demand deposits are reported separately from loans and advances.

2) "cb" refers to "cash balances at central banks and other demand deposits".
