¹⁾ Only banks that are required to report liquidity information at the highest level of consolidation in the Single Supervisory Mechanism (SSM) are included in the liquidity coverage ratio calculations.

²⁾ CET1, Tier 1 and total capital ratios are based on the transitional provisions laid down in Articles 465 to 491 of Regulation (EU) No 575/2013 on prudential requirements for credit institutions and investment firms (the Capital Requirements Regulation).

³⁾ The Level 1, 2 and 3 asset categories include only financial instruments measured at fair value.

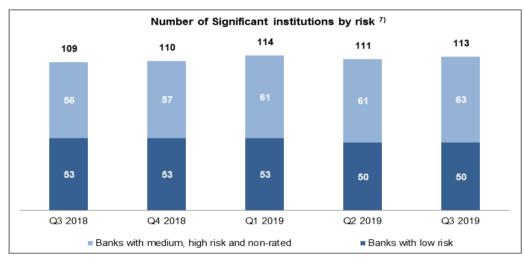

T01.01 Significant institutions by country and classification

(number of institutions)

| Country | Q3 201 |
|-------------|--------|
| Belgium | |
| Germany | 2 |
| Estonia | ; |
| Ireland | (|
| Greece | 4 |
| Spain | 12 |
| France | 11 |
| Italy | 12 |
| Cyprus | ; |
| Latvia | ; |
| Lithuania | 2 |
| Luxembourg | |
| Malta | ; |
| Netherlands | (|
| Austria | (|
| Portugal | |
| Slovenia | ; |
| Slovakia 1) | |
| Finland | |
| Total | 11: |

| Size | Q3 2019 |
|---------------------------------------|---------|
| Banks with total assets | |
| Less than €30 billion | 28 |
| Between €30 billion and €100 billion | 46 |
| Between €100 billion and €200 billion | 13 |
| More than €200 billion | 18 |
| G-SIBs 2) | 8 |
| Total | 113 |

| Geographical diversification | Q3 2019 |
|--|---------|
| Banks with significant domestic exposures 3) | 19 |
| Banks with largest non-domestic exposures | |
| SSM | 57 |
| Non-SSM EEA 4) | 17 |
| Non-EEA Europe ⁵⁾ | 6 |
| RoW ⁶⁾ | 14 |
| Total | 113 |

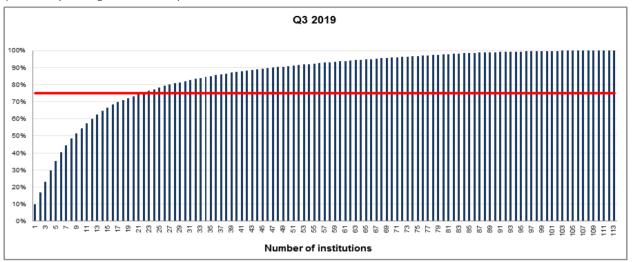

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

- 1) There are no significant institutions at the highest level of consolidation in Slovakia.
- 2) G-SIBs: global systemically important banks. Data based on the last available list of G-SIBs as published by the Financial Stability Board.
- 3) Domestic exposures more than 95% of total debt securities and loans and advances.
- 4) Countries in the European Economic Area (EEA) not participating in the Single Supervisory Mechanism (SSM).
- 5) European countries not in the EEA.
- 6) RoW: rest of the world, i.e. all countries except European countries.
- 7) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

T01.02 Concentration of total assets

(cumulative percentages of total assets)

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

The charts show the cumulative percentage of the total assets in the sample which is covered when the total assets of each institution, ordered from the largest to the smallest, are added. For instance, it is shown that the largest institution in the sample accounts for almost 10% and the 20 largest institutions represent approximately 75% of the total assets in the sample. The solid line in red corresponds to the 75th percentile.

T02.01.1 Profit and loss figures by reference period

Source: ECB

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. Specifically, there are 109 banks in the third quarter of 2018, 110 in the fourth quarter of 2018, 114 in the first quarter of 2019, 111 in the second quarter of 2019 and 113 in the third quarter of 2019. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

¹⁾ Profit and loss statement figures may be based on different financial years. To increase consistency, if the end of the financial year is not 31 December, a linear projection of the figures has been made for each reporting period.

²⁾ Figures reported are year-to-date.

³⁾ Operating income before administrative expenses and depreciation are deducted.

⁴⁾ Provisions include provisions for "commitments and guarantees given" and "other provisions".

⁵⁾ Profit and loss before tax from continued operations (i.e. "net income before impairment, provisions and taxes" + "impairment and provisions" + "other") plus profit and loss before tax from discontinued operations.

¹⁾ Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

²⁾ Profit and loss statement figures may be based on different financial years. To increase consistency, if the end of the financial year is not 31 December, a linear projection of the figures has been made for each reporting period.

³⁾ Figures reported are year-to-date.

⁴⁾ Operating income before administrative expenses and depreciation are deducted.

⁵⁾ Provisions include provisions for "commitments and guarantees given" and "other provisions".

⁶⁾ Profit and loss before tax from continued operations (i.e. "net income before impairment, provisions and taxes" + "impairment and provisions" + "other") plus profit and loss before tax from discontinued operations.

T02.02.1 Key performance indicators by reference period

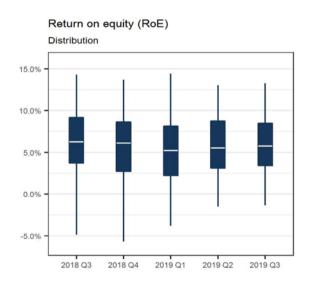

(percentages)

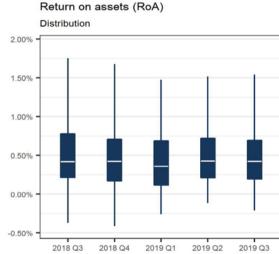

| Indicator 1) 2) | Q3 2018 | Q4 2018 | Q1 2019 | Q2 2019 | Q3 2019 |
|----------------------------|---------|---------|---------|---------|---------|
| Return on equity (RoE) | 6.85% | 6.16% | 5.76% | 6.01% | 5.83% |
| Return on assets (RoA) | 0.45% | 0.42% | 0.38% | 0.40% | 0.38% |
| Cost-to-income ratio (CIR) | 65.08% | 65.85% | 69.18% | 66.43% | 65.48% |

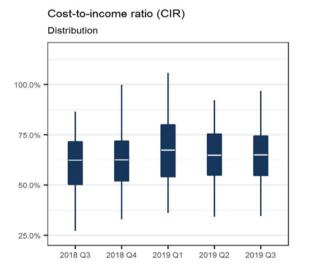

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. Specifically, there are 109 banks in the third quarter of 2018, 110 in the fourth quarter of 2018, 114 in the first quarter of 2019, 111 in the second quarter of 2019 and 113 in the third quarter of 2019. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

- 1) RoE and RoA are computed by dividing "net profit/loss" by, respectively, "equity" and "total assets" at the end of the corresponding reference period. The values of "net profit/loss", originally year-to-date, are annualised to increase the comparability of the ratios across quarters.
- 2) Returns figures may be based on different financial years. To increase consistency, if the end of the financial year is not 31 December, a linear projection of the figures has been made for each reporting period.

T02.02.2 Key performance indicators by country

Source: ECB.

¹⁾ Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

²⁾ Computed as the difference between "total assets" and the sum of the other sub-categories.

³⁾ An asset is considered to be encumbered if it has been pledged or if it is subject to any form of arrangement to secure, collateralise or credit-enhance any transaction from which it cannot be freely withdrawn.

| Total liabilities and equity | 23,262.69 | 14,344.84 | 8,917.85 |

¹⁾ Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

²⁾ In line with IAS 37.10 and IAS 1.54(I).

³⁾ Computed as the difference between "total liabilities and equity" and the sum of the other sub-categories.

⁴⁾ Computed as the difference between "equity" and the sum of the other sub-categories.

| Total exposure | 2,982,586.00 | 3,032,859.09 |

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. In accordance with Article 5(b), point 3 of Regulation (EU) No 680/2014, reporting requirements apply to sovereign exposures where the aggregate carrying amount of financial assets from the "General governments" counterparty sector is equal to or higher than 1% of the sum of the total carrying amounts for "Debt securities" and "Loans and advances". Therefore, the sample of entities in the table is smaller than the full sample of entities. Specifically, there are 106 banks in the fourth quarter of 2018 and in the second quarter of 2019. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

- C: the value is suppressed for confidentiality reasons.
- 1) Countries in the European Economic Area (EEA) not participating in the Single Supervisory Mechanism (SSM).
- 2) European countries not in the EEA.
- 3) RoW: rest of the world, i.e. all countries except European countries.
- 4) Institutions whose non-domestic sovereign exposures are less than 10% of their total sovereign exposures are required to report the exposure at an aggregated level only.
- 5) This table is based on Template C 33.00.a. Institutions are required to report this template twice a year only, in the second and fourth quarters. The sample of entities and their classification does not change between the second and third quarters.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available; only the banks that have to comply with the sovereign exposures requirement are accounted in the table.

C: the value is suppressed for confidentiality reasons.

¹⁾ Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk. Data for the calculation of exposure to general governments for the fourth quarter of 2018 for one significant institution (total assets less than €30 billion) has been excluded due to data quality issues at the cut-off date.

²⁾ Countries in the European Economic Area (EEA) not participating in the Single Supervisory Mechanism (SSM).

³⁾ European countries not in the EEA.

⁴⁾ RoW: rest of the world, i.e. all countries except European countries.

⁵⁾ Institutions whose non-domestic sovereign exposures are less than 10% of their total sovereign exposures are required to report the exposure at an aggregated level only.

¹⁾ Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. Specifically, there are 109 banks in the third quarter of 2018, 110 in the fourth quarter of 2018, 114 in the first quarter of 2019, 111 in the second quarter of 2019 and 113 in the third quarter of 2019. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

1) LR stands for Leverage Ratio.

T03.04.2 Leverage ratio band by country

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

- C: the value is suppressed for confidentiality reasons.
- 1) This category includes "corporates SME", "corporates specialised lending" and "corporates other".
- 2) This category includes "retail qualifying revolving", "retail other SME" and "Retail other non-SME".
- 3) This category includes "retail secured by real estate SME" and "retail secured by real estate non-SME".
- 4) CCP stands for central counterparty.
- 5) SA stands for standardised approach.
- 6) IM stands for internal model.
- 7) BIA stands for basic indicator approach.
- 8) TSA stands for traditional standardised approach. ASA stands for alternative standardised approach.
- 9) AMA stands for advanced measurement approach.
- 10) Includes "additional risk exposure amount due to fixed overheads", "total risk exposure amount related to large exposures in the trading book" and "other risk exposure amounts".

14.34%

- 11) Risk weights are calculated as the ratio of the risk-weighted exposure amount to the total exposure amount. Not all exposure classes are presented in the table.
- 12) Domestic exposures more than 95% of total debt securities and loans and advances.
- 13) Countries in the European Economic Area (EEA) not participating in the Single Supervisory Mechanism (SSM).
- 14) European countries not in the EEA.
- 15) RoW: rest of the world, i.e. all countries except European countries.

¹⁾ Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available; only the banks using Internal Rating Based approach to calculate their credit risk-weighted exposure amounts are accounted in the table. Where the conditions set out in Part Three, Title II, Chapter 3 of the CRR are met, the competent authority shall permit institutions to calculate their risk-weighted exposure amounts using the IRB approach. Specifically, there are 109 banks in the third quarter of 2018, 110 in the fourth quarter of 2018, 114 in the first quarter of 2019 and 113 in the third quarter of 2019. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

C: the value is suppressed for confidentiality reasons.

¹⁾ The countries shown in the table were selected based on the relevance of the aggregate exposure value of the SSM banks using the internal ratings based approach towards the obligors of those countries.

¹⁾ G-SIBs: global systemically important banks. Data based on the last available list of G-SIBs as published by the Financial Stability Board.

²⁾ Loans and advances in the asset quality tables are displayed at gross carrying amount. In line with FINREP: i) held for trading exposures are excluded, ii) cash balances at central banks and other demand deposits are included.

T04.02.3 Asset quality: non-performing loans and advances by classification (risk-based) 1)

(EUR billions; percentages)

| Category (Q3 2019) | Loans and advances ²⁾ | Non-performing loans and advances | Non-performing loans ratio |
|--|----------------------------------|-----------------------------------|----------------------------|
| Banks with low risk | 10,041.19 | 259.00 | 2.58% |
| Banks with medium, high risk and non-rated | 5,888.69 | 283.71 | 4.82% |
| Total | 15,929.88 | 542.71 | 3.41% |

Source: ECB.

- 1) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.
- 2) Loans and advances in the asset quality tables are displayed at gross carrying amount. In line with FINREP: i) held for trading exposures are excluded, ii) cash balances at central banks and other demand deposits are included.

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available; only the banks that have to comply with the liquidity coverage requirement are accounted in the table. According to Article 11(3) of Regulation (EU) No 575/2013, where a group comprises one or more banks, the EU parent institution shall report the liquidity requirement. As such, the list of banks used for this table is a subset of the list employed elsewhere in the publication, as the scope of reporting on liquidity differs from the scope of prudential reporting on own funds and specific waivers may apply. Specifically, there are 101 banks in the third quarter of 2018, 102 in the fourth quarter of 2018, 106 in the first quarter of 2019, 103 in the second quarter of 2019 and 105 in the third quarter of 2019. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

According to Commission Implementing Regulation (EU) 2016/322 of 10 February 2016 amending Implementing Regulation (EU) No 680/2014 laying down implementing technical standards with regard to supervisory reporting of institutions of the liquidity coverage requirement, banks are required to report the liquidity coverage ratio and its components on a monthly basis.

- 1) Unless otherwise stated, data refer to the end of the quarter specified in the header.
- 2) EHQCB stands for Extremely High Quality Covered Bonds.

| Denominator: Net liquidity outflow | 2,431.29 | 1,529.09 | 902.20 |
| Total outflows | 3,690.06 | 2,237.85 | 1,452.22 |
| Reduction for inflows | 1,258.78 | 708.76 | 550.01 |
| Liquidity coverage ratio | 145.16% | 138.60% | 156.27% |

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available; only the banks that have to comply with the liquidity coverage requirement are accounted in the table.

C: the value is suppressed for confidentiality reasons.

- 2) Data refer to the end of the quarter specified in the header.
- 3) EHQCB stands for Extremely High Quality Covered Bonds.

¹⁾ Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

T06.02.1 Liquidity coverage ratio band by reference period

(number of institutions)

| Indicator 1) | Q3 2018 | Q4 2018 | Q1 2019 | Q2 2019 | Q3 2019 |
|--------------------------|---------|---------|---------|---------|---------|
| LCR ²⁾ ≤ 100% | 3 | 4 | 3 | 3 | 2 |
| 100% < LCR ≤ 150% | 44 | 39 | 32 | 38 | 36 |
| LCR > 150% | 54 | 59 | 71 | 62 | 67 |
| Total | 101 | 102 | 106 | 103 | 105 |

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available; only the banks that have to comply with the liquidity coverage requirement are accounted in the table. According to Article 11(3) of Regulation (EU) No 575/2013, where a group comprises one or more banks, the EU parent institution shall report the liquidity requirement. As such, the list of banks used for this table is a subset of the list employed elsewhere in the publication, as the scope of reporting on liquidity differs from the scope of prudential reporting on own funds and specific waivers may apply. Specifically, there are 101 banks in the third quarter of 2018, 102 in the fourth quarter of 2018, 106 in the first quarter of 2019, 103 in the second quarter of 2019 and 105 in the third quarter of 2019. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

According to Commission Implementing Regulation (EU) 2016/322 of 10 February 2016 amending Implementing Regulation (EU) No 680/2014 laying down implementing technical standards with regard to supervisory reporting of institutions of the liquidity coverage requirement, banks are required to report the liquidity coverage ratio and its components on a monthly basis.

- 1) Unless otherwise stated, data refer to the end of the quarter specified in the header.
- 2) LCR stands for Liquidity Coverage Ratio.

T06.02.2 Liquidity coverage ratio band by country

(number of institutions)

| Country (Q3 2019) | LCR ³⁾ ≤ 100% | 100% < LCR ≤ 150% | LCR > 150% |
|----------------------|--------------------------|-------------------|------------|
| Belgium | - | 2 | 5 |
| Germany | - | 8 | 13 |
| Estonia | - | 1 | - |
| Ireland | - | 4 | 2 |
| Greece | 2 | 1 | 1 |
| Spain | - | 1 | 11 |
| France | - | 4 | 6 |
| Italy | - | 1 | 11 |
| Cyprus | - | - | 3 |
| Latvia | - | - | 1 |
| Lithuania 1) | - | - | - |
| Luxembourg | - | 4 | 1 |
| Malta | - | - | 2 |
| Netherlands | - | 4 | 2 |
| Austria | - | 5 | 1 |
| Portugal | - | 1 | 2 |
| Slovenia | - | - | 3 |
| Slovakia 2) | - | - | - |
| Finland | - | - | 3 |
| Total | 2 | 36 | 67 |

Source: ECB

- 1) There are no significant institutions at the highest level of consolidation in Lithuania required to report the liquidity coverage ratio and its components.
- 2) There are no significant institutions at the highest level of consolidation in Slovakia.
- 3) LCR stands for Liquidity Coverage Ratio.

T06.02.3 Liquidity coverage ratio band by classification (geographical diversification)

(number of institutions)

| Category (Q3 2019) | LCR ⁵⁾ ≤ 100% | 100% < LCR ≤ 150% | LCR > 150% |
|--|--------------------------|-------------------|------------|
| Banks with significant domestic exposures 1) | - | 1 | 14 |
| Banks with largest non-domestic exposures | | | |
