I. RATIONALE FOR, AND SCOPE OF, AN ECB REGULATION ON REPORTING OF SUPERVISORY FINANCIAL INFORMATION

- (1) The Single Supervisory Mechanism (SSM) was established by Council Regulation (EU) No 1024/2013¹ (hereinafter the ‘SSM Regulation’). The SSM Regulation entered into force on 3 November 2013 and the ECB will assume its SSM-related tasks from 4 November 2014. The framework establishing the practical aspects of the cooperation between the ECB and the national competent authorities (NCAs) within the SSM is laid down in Regulation (EU) No 468/2014 of the European Central Bank (ECB/2014/17)² (hereinafter the ‘SSM Framework Regulation’).
- (2) At present, supervisory financial reporting is only mandatory for institutions applying International Financial Reporting Standards (IFRS) at the consolidated level. The draft Regulation of the European Central Bank on reporting of supervisory financial information aims to extend the regular reporting of supervisory financial information to the consolidated reports of banks under national accounting frameworks (hereinafter ‘National GAAPs’), as well as to reports at the solo level (i.e. including a single legal entity). This extension will cover all supervised entities. However, in accordance with the proportionality principle, less significant supervised entities will be subject to reduced reporting requirements and be given more time for implementation.

I.1 Supervision under the SSM

- (3) The SSM is a system of banking supervision composed of the ECB and the NCAs of participating Member States.³ Within the SSM, the ECB will be responsible for the direct supervision of significant supervised entities, whereas the NCAs will be responsible for the direct supervision of less significant supervised entities.⁴ The ECB will also be responsible for the effective and consistent functioning of the SSM. Furthermore, the ECB will be able to issue general instructions to the NCAs with regard to the supervision of less significant supervised entities and will retain investigatory powers over all supervised entities.
- (4) The establishment of the SSM will help to restore confidence in the banking sector through independent, integrated supervision in all participating Member States. The SSM will also contribute to the effective application of the single rulebook for financial services and the

² Regulation (EU) No 468/2014 of the European Central Bank of 16 April 2014 establishing the framework for cooperation within the Single Supervisory Mechanism between the European Central Bank and national competent authorities and with national designated authorities (SSM Framework Regulation) (ECB/2014/17) (OJ L 141, 14.5.2014, p. 51).

³ See Article 2(9) of the SSM Regulation.

⁴ ‘Supervised entities’ comprise credit institutions established in the participating Member States and branches established in a participating Member State by a credit institution established in a non-participating Member State. The distinction between ‘significant’ and ‘less significant’ supervised entities is laid down in Article 6(4) of the SSM Regulation and Part IV of the SSM Framework Regulation.

harmonisation of supervisory procedures and practices by enabling increased comparability of information.

I.2 Scope of the draft ECB Regulation on reporting of supervisory financial information

- (5) In order to carry out its supervisory tasks effectively, the ECB must collect adequate regular (i.e. at recurring intervals), standardised (i.e. in specified formats) data. The harmonisation of supervisory reporting at the Union level has been effected via the implementing technical standards on supervisory reporting⁵ (hereinafter the ‘ITS on supervisory reporting’), which specify the uniform formats, frequencies, dates of reporting, definitions and IT solutions to be applied by credit institutions and investment firms in the Union.
- (6) The ECB and the NCAs are required to exercise their supervisory powers concerning reporting of information subject to, and in compliance with, the ITS on supervisory reporting for the areas covered by this draft ECB Regulation. The ITS on supervisory reporting set out requirements for reporting in respect of own funds and capital requirements, consolidated supervisory financial information, large exposures, and leverage and liquidity ratios. These requirements also take due account of the need for proportionality in order to alleviate the reporting burden.
- (7) In the ITS on supervisory reporting, financial reporting is mandatory for (significant and less significant) supervised groups (i.e. reporting on a consolidated basis) applying IFRS. In this connection, the extension of the reporting requirements for supervisory financial information (termed ‘FINREP’⁶) developed by the European Banking Authority (EBA) should ensure consistency and comparability among the supervised entities established in the various participating Member States.
- (8) The draft ECB Regulation on reporting of supervisory financial information aims at:
 - (a) extending the uniform supervisory financial reporting requirements to significant supervised groups applying National GAAPs, through completion of the templates provided in Annex IV of the ITS on supervisory reporting;⁷
 - (b) specifying the supervisory financial information to be provided to the ECB regarding significant supervised entities as well as subsidiaries of significant supervised groups in non-participating Member States or third countries (i.e. reporting at the solo level under both IFRS and National GAAPs);⁸

⁵ Commission Implementing Regulation (EU) No 680/2014 of 16 April 2014 laying down implementing technical standards with regard to supervisory reporting of institutions according to Regulation (EU) No 575/2013 of the European Parliament and of the Council (OJ L 191, 28.6.2014, p. 1).

⁶ FINREP stands for ‘supervisory FINancial REPorting’.

⁷ See Chapter I of Title II of the draft ECB Regulation on reporting of supervisory financial information.

⁸ See Chapters II and III of Title II of the draft ECB Regulation on reporting of supervisory financial information.

- (c) specifying the supervisory financial information to be provided to the ECB regarding less significant groups under National GAAPs and less significant supervised entities (under both IFRS and National GAAPs).⁹
- (9) The draft ECB Regulation on reporting of supervisory financial information covers reporting requirements for supervised entities and sets out rules relating to the submission of information by the NCAs to the ECB. For reasons of clarity and transparency, the requirements are set out in a single legal act, rather than in a number of separate acts.

I.3 Legal basis of the draft ECB Regulation on reporting of supervisory financial information

- (10) On the basis of Article 6(5)(d) and Article 10 of the SSM Regulation and Article 141(1) of the SSM Framework Regulation, and subject to Article 4 of the SSM Regulation, the ECB requires supervised entities to report any information that is necessary for it to carry out its tasks, including information to be provided at recurring intervals and in specified formats for supervisory and related statistical purposes.
- (11) The ECB publishes the detailed operational arrangements for its SSM-related supervisory tasks by means of regulations and decisions. It was therefore decided that the practical arrangements for collecting supervisory financial information should be set out in the form of an ECB regulation.
- (12) An ECB regulation has general application. It is binding in its entirety and directly applicable in the Member States in accordance with the Treaties. It is thus the appropriate legal instrument to establish the practical arrangements for the implementation of Article 6 of the SSM Regulation. The SSM Regulation, the SSM Framework Regulation and, once adopted by the ECB's Governing Council, the ECB Regulation on reporting of supervisory financial information form part of Union law and prevail over national law in the areas they regulate.
- (13) The draft ECB Regulation on reporting of supervisory financial information gives NCAs a degree of flexibility to decide on the formats, frequency and remittance dates for their collection and reporting of supervisory financial information. This will enable NCAs to continue running, or to set up, 'integrated' reporting systems (i.e. reporting systems which also serve purposes other than supervision, such as statistical ones), thereby increasing efficiency in collecting data.
- (14) Before adopting a regulation, the ECB is required to conduct an open public consultation and to analyse the potential costs and benefits of the proposed legal act¹⁰. In accordance with the

⁹ Title III of the draft ECB Regulation on reporting of supervisory financial information.

¹⁰ See Article 4(3) of the SSM Regulation.

Interinstitutional Agreement¹¹ between the European Parliament and the ECB, the draft ECB Regulation on reporting of supervisory financial information was sent to the relevant committee of the European Parliament before the launch of the public consultation.

I.4 Costs and benefits of the draft ECB Regulation on reporting of supervisory financial information

- (15) The costs and benefits of the requirements proposed in the draft ECB Regulation on reporting of supervisory financial information have already been assessed, in the first instance, by the NCAs and the ECB. However, one of the aims of the public consultation is to obtain a wider range of information and views on the potential costs of the proposals set out in the draft ECB Regulation. Responses may therefore provide particularly relevant information for the completion of the cost-benefit analysis.
- (16) The ECB has already discussed the feasibility of the reporting requirements proposed in the draft ECB Regulation with the NCAs and has taken their views on board. These discussions confirmed that the draft ECB Regulation adequately addresses data gaps in supervisory financial reporting and thereby fosters robust supervision.
- (17) The draft ECB Regulation on reporting of supervisory financial information is an important step forward in that, by making supervised entities established in different participating Member States report a common set of supervisory financial information, it ensures comparability.
- (18) The collection of common templates for significant supervised groups – while maintaining flexibility related to the usage of different accounting frameworks – allows for consistent collection of the main items on their balance sheets and statements of profit and loss. Furthermore, the collection of supervisory financial information from less significant supervised groups goes some way to fulfilling the provisions of the SSM Regulation dealing with the ECB's power to assume direct supervision of supervised entities which are not significant on other grounds¹². The collection of supervisory financial reporting at the solo level:
 - (a) allows the ECB to obtain consistent data to run, inter alia, a centralised risk assessment system;
 - (b) is a key step towards common reporting requirements within the SSM;

¹¹ Interinstitutional Agreement between the European Parliament and the European Central Bank on the practical modalities of the exercise of democratic accountability and oversight over the exercise of the tasks conferred on the ECB within the framework of the Single Supervisory Mechanism (OJ L 320, 30.11.2013, p. 1).

¹² See Article 6(5)(b) of the SSM Regulation.

- (c) is consistent with the need to perform supervision at both the consolidated and solo level, as envisaged in the Core Principles for Effective Banking Supervision of the Basel Committee on Banking Supervision.
- (19) The requirements in the draft ECB Regulation on reporting of supervisory financial information have been informed by the principle of proportionality and envisage the NCAs making as much use as possible of the existing reporting systems.
- (20) To further strike a balance between the availability of complete, consistent and regular reporting and the need to avoid imposing an undue reporting burden, the extension of the supervisory financial reporting requirements incorporates the following provisions with regard to proportionality:
- (a) Reporting requirements for entities that are part of significant supervised groups and for less significant supervised groups and entities are less stringent in terms of data content.
 - (b) For less significant supervised groups and entities, an asset-value threshold (€1 billion of total assets) has been established that triggers reporting requirements that are even lower. The same threshold is used to exempt significant supervised groups from providing reporting on non-material (i.e. below the asset-value threshold) subsidiaries in non-participating Member States or third countries, as well as to exempt less significant non-material branches of credit institutions established in non-participating Member States from the reporting requirements.
 - (c) For significant supervised groups and entities, an implementation period is envisaged that will run, at least, until the reference date of 31 December 2015. For less significant supervised groups and entities, an even longer implementation period is foreseen (until the reference date of 30 June 2017), so as not to overburden them.

II. CONTENT OF THE DRAFT ECB REGULATION ON REPORTING OF SUPERVISORY FINANCIAL INFORMATION

II.1 Overview of the requirements of the draft ECB Regulation on reporting of supervisory financial information

- (21) In describing the requirements of the draft ECB Regulation on reporting of supervisory financial information, the following key factors are notable:
- (a) A distinction needs to be made between significant and less significant supervised entities.
 - (b) It is important to consider the level of application of the requirements – whether they apply at the consolidated level (i.e. the report includes the parent and its subsidiaries), at the solo level (i.e. the report includes a single legal entity), or at the branch level (i.e. the report includes the activities of a branch that is a part of a legal entity).
 - (c) A distinction needs to be made between reporting that applies IFRS and reporting that applies National GAAPs.
- (22) Furthermore, it is important to specify whether or not the entity reporting at the solo level is already included in consolidated reports. Supervised entities that are part of supervised groups are referred to as ‘separate’ parents or subsidiaries when reporting at the solo level; other supervised entities are referred to as ‘stand-alone’ entities¹³.
- (23) The interaction of the factors described above result in different groups of reporting agents. Each one of these groups of reporting agents is subject to different reporting requirements in terms of data content and the first remittance date. The table below summarises the requirements in the draft ECB Regulation on reporting of supervisory financial information.
- (24) The draft ECB Regulation on reporting of supervisory financial information defines different datasets – ‘Full FINREP’, ‘Simplified supervisory financial reporting’, ‘Over-simplified supervisory financial reporting’, and ‘Supervisory financial reporting data points’ – to tailor the data content to the characteristics of each group of reporting agents.
- ‘Full supervisory financial reporting’ comprises the ‘full’ set of FINREP templates, as provided for in the ITS on supervisory reporting.
 - ‘Simplified supervisory financial reporting’¹⁴ comprises a reduced set of templates.
 - ‘Over-simplified supervisory financial reporting’¹⁵ is an even further reduced set of templates.

¹³ ‘Stand-alone’ entities refers to credit institutions that do not have a parent (or have a parent that is established in a non-participating Member State) nor subsidiaries (in any country, irrespective of whether it is a participating Member State, a non-participating Member State or a third country).

¹⁴ See Annex I of the draft ECB Regulation on reporting of supervisory financial information.

- ‘Supervisory financial reporting data points’¹⁶ is the most reduced dataset, as it includes only selected data points taken from the templates of the ‘Over-simplified supervisory financial reporting’ sub-set.
- (25) The draft ECB Regulation on reporting of supervisory financial information neither affects the accounting standards applied by supervised groups and entities in their consolidated accounts or annual accounts, nor does it change the accounting standards applied for supervisory reporting. As supervised groups and entities apply different accounting standards, they only have to submit the information related to the valuation rules, including methods for the estimation of credit risk losses, which exist under the relevant accounting standards and are effectively applied by them.
- (26) ‘Waived’ institutions are excluded from the requirements set out in the draft ECB Regulation on reporting of supervisory financial information¹⁷.

¹⁵ See Annex II of the draft ECB Regulation on reporting of supervisory financial information.

¹⁶ See Annex III of the draft ECB Regulation on reporting of supervisory financial information.

¹⁷ ‘Waivers’ concern whether the solvency ratios need to be met by the institutions within a group. To ‘waive’ an institution from the solvency ratios means that this institution does not have to comply with the solvency ratios at the solo level.

- (27) Information compiled in accordance with the ITS on supervisory reporting is collected by the NCAs and reported to the ECB under Decision ECB/2014/29¹⁸. Under the ITS on supervisory reporting, consolidated FINREP is mandatory for credit institutions (both significant and less significant) under IFRS.
- (28) Regarding consolidated supervisory financial reporting of significant supervised groups under National GAAPs, the draft ECB Regulation requires completion of a ‘full’ set of FINREP templates, in accordance with the ITS on supervisory reporting.
- (29) Regarding supervisory financial reporting at the solo level of significant supervised entities (under both IFRS and National GAAPs), the ECB will require the completion of the ‘full’ set of FINREP templates for significant ‘stand-alone’ entities, and a more reduced set of templates of ‘Simplified supervisory financial reporting’ for ‘non-waived’ separate parents and subsidiaries of significant groups.
- (30) The draft ECB Regulation also specifies the supervisory financial information to be reported to the ECB regarding less significant groups under National GAAPs and less significant individual entities (under both IFRS and National GAAPs). For these groups and entities, different sub-sets of supervisory financial reporting templates – namely ‘Simplified supervisory financial reporting’ and ‘Over-simplified supervisory financial reporting’ – will be collected. Furthermore, an asset-value threshold of €1 billion has been incorporated, meaning that even simpler reporting is envisaged for groups and entities below this threshold.
- (31) Branches of credit institutions established in non-participating Member States that are located in participating Member States are supervised – either directly or indirectly – by the ECB. They may be categorised as either significant or less significant supervised entities¹⁹. The data content of regular reporting of supervisory financial information by branches of credit institutions established in non-participating Member States that are located in participating Member States is aligned with that of the category of supervised entities to which they belong (significant or less significant). The only exception is that of less significant non-material (i.e. below the asset-value threshold of €1 billion) branches in participating Member States of credit institutions established in non-participating Member States, which are exempted from the reporting requirements.
- (32) Finally, to obtain a comprehensive evaluation of a significant banking group, the ECB will collect supervisory financial information about material (i.e. above the asset-value threshold of €1 billion) subsidiaries of banking groups subject to the SSM which are established in

countries that are not participating in the SSM (regardless of whether they are countries within the Union or third countries).

II.2 ‘Common minimum’ contained in the draft ECB Regulation on reporting of supervisory financial information

- (33) Reporting requirements could be made the same (i.e. uniform) for all supervised entities and participating Member States. An alternative course of action would be to establish a minimum set of reporting requirements to be fulfilled by supervised entities (hereinafter a ‘common minimum’), but to give NCAs flexibility to put in place more stringent reporting requirements.
- (34) Regarding the consolidated financial reporting of significant supervised groups under National GAAPs, the ECB intends to require the provision of a uniform set of information: the ‘full’ set of FINREP templates, as provided for in the ITS on supervisory reporting.
- (35) Consolidated financial reporting under National GAAPs of less significant supervised groups would be subject to a ‘common minimum’; thus, within the conditions set out in relevant Union law, NCAs would have the power to decide how to collect the relevant information. Within this framework, NCAs could implement a more efficient approach in order to collect the ‘common minimum’ set of information to be delivered to the ECB.
- (36) Supervisory financial reporting at the solo level would also be subject to a ‘common minimum’ for both significant and less significant supervised entities; NCAs will be free to decide if they want to supplement (or not supplement) the ‘common minimum’ in order to collect information for other purposes (e.g. statistics or central credit registers). This flexibility is justified by the ‘multipurpose’ intention of supervisory financial reporting at the solo level. It also serves for the compilation of statistical information in ‘integrated’ reporting systems; as these reporting systems are cost-efficient, NCAs should be allowed to complement the ‘common minimum’ dataset by keeping in place ‘integrated’ reporting systems. Furthermore, supervisory financial reporting at the solo level is often used to gather information on national legal provisions (e.g. deposits with tax incentives or mortgages with specific characteristics); this is another reason for allowing NCAs to complement the ‘common minimum’ dataset.
- (37) When the additional data points collected by the NCAs on top of the ‘common minimum’ are entire templates, as set out in the ITS on supervisory reporting, these templates are to be submitted to the ECB. In this way, for example, if a given NCA needs to ask (or continues to ask) for the ‘full’ set of FINREP templates from consolidated reporting agents under National GAAPs, it would be possible to do so. In that case, the NCA has to submit the ‘full’ set of templates to the ECB. This is also the case for less significant supervised groups, despite their ‘common minimum’ being only the set of ‘Supervisory financial reporting data points’²⁰.

²⁰ NCAs are to notify the ECB in advance of any additional templates beyond the ‘common minimum’ that they intend to transmit.

However, if the additional data points collected by NCAs on top of the ‘common minimum’ are not entire templates, as defined in the ITS on supervisory reporting, the draft Regulation does not require them to be submitted to the ECB. The ECB will not therefore collect these additional data points at recurrent intervals; their collection, when needed, will be evaluated on a ‘case-by-case’ basis taking into account the feasibility of the related data quality checks.

III. THE DRAFT ECB REGULATION ON REPORTING OF SUPERVISORY FINANCIAL INFORMATION

This draft Regulation is a working draft for consultation purposes only. It does not purport to represent or prejudge the final proposal for an ECB Regulation on reporting of supervisory financial information to be presented by the Supervisory Board to the Governing Council.

REGULATION OF THE EUROPEAN CENTRAL BANK

of [date Month 2014]

on reporting of supervisory financial information

([ECB/YYYY/ZZ])

THE GOVERNING COUNCIL OF THE EUROPEAN CENTRAL BANK,

Having regard to Council Regulation (EU) No 1024/2013 of 15 October 2013 conferring specific tasks on the European Central Bank concerning policies relating to the prudential supervision of credit institutions¹, and in particular Article 4(1), Article 4(3), Article 6(2), Article 6(5)(d) and Article 10 thereof,

Having regard to Regulation (EU) No 468/2014 of the European Central Bank of 16 April 2014 establishing the framework for cooperation within the Single Supervisory Mechanism between the European Central Bank and national competent authorities and with national designated authorities (SSM Framework Regulation) (ECB/2014/17)², and in particular Article 21(1), Article 140 and Article 141(1) thereof,

Whereas:

- (1) Credit institutions are subject to regular reporting requirements as set out in Regulation (EU) No 575/2013 of the European Parliament and of the Council³ (also referred to herein as the ‘CRR’) and Commission Implementing Regulation (EU) No 680/2014⁴. The information reported is collected by the ECB under Decision ECB/2014/29⁵. This Regulation complements Decision ECB/2014/29 by further specifying the requirements concerning the reporting of supervisory financial information.
- (2) Regulation (EU) No 680/2014 lays down uniform requirements for all institutions subject to Regulation (EU) No 575/2013 in relation to supervisory reporting to competent authorities for

¹ OJ L 287, 29.10.2013, p. 63.

² OJ L 141, 14.05.2014, p. 1.

³ Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 (OJ L 176, 27.6.2013, p. 1).

⁴ Commission Implementing Regulation (EU) No 680/2014 of 16 April 2014 laying down implementing technical standards with regard to supervisory reporting of institutions according to Regulation (EU) No 575/2013 of the European Parliament and of the Council (OJ L 191, 28.6.2014, p. 1).

⁵ Decision ECB/2014/29 of the European Central Bank of 2 July 2014 on the provision to the European Central Bank of supervisory data reported to the national competent authorities by the supervised entities pursuant to Commission Implementing Regulation (EU) No 680/2014 (OJ L 214, 19.07.2014, p. 34).

specific areas set out in Article 1 of that Regulation (EU) No 680/2014. One of these areas is financial information on a consolidated basis. Under Article 99(2) of Regulation (EU) No 575/2013, the reporting of supervisory financial information on a consolidated basis is mandatory for credit institutions that prepare their consolidated accounts in conformity with the international accounting standards adopted in accordance with the procedure laid down in Article 6(2) of Regulation (EC) No 1606/2002 of the European Parliament and of the Council⁶. The submission by national competent authorities (NCAs) to the ECB of the supervisory financial information mandatory under Regulation (EU) No 680/2014, concerning both significant and less significant supervised entities, currently takes place in accordance with Decision ECB/2014/29 and should continue unaffected, as it is not covered by the subject matter of this Regulation.

- (3) The exercise of the discretion to require credit institutions to use international accounting standards as applicable under Regulation (EC) No 1606/2002 for supervisory reporting pursuant to Article 24(2) of Regulation (EU) No 575/2013 is outside the subject matter of this Regulation. Having regard to Article 150 of Regulation (EU) No 468/2014 (ECB/2014/17), previous decisions by NCAs concerning the exercise, or non-exercise, of this discretion should remain unaffected.
- (4) In accordance with Article 99(3) of Regulation (EU) No 575/2013, for credit institutions applying international accounting standards as applicable under Regulation (EC) No 1606/2002 for supervisory reporting pursuant to Article 24(2) of Regulation (EU) No 575/2013, the reporting of supervisory financial information on a consolidated basis requires a decision by the competent authority to extend this reporting. The ECB should also take a decision to extend the requirement to submit supervisory financial information to significant supervised groups applying Regulation (EC) No 1606/2002 for supervisory reporting pursuant to Article 24(2) of Regulation (EU) No 575/2013.
- (5) In accordance with Article 99(6) of Regulation (EU) No 575/2013, for credit institutions applying national accounting frameworks based on Council Directive 86/635/EEC⁷, the reporting of supervisory financial information on a consolidated basis requires a previous decision by the competent authority to extend this reporting. The ECB should also take a decision to extend the requirement to submit supervisory financial information to significant supervised groups applying national accounting frameworks based on Directive 86/635/EEC.

⁶ Regulation (EC) No 1606/2002 of the European Parliament and of the Council of 19 July 2002 on the application of international accounting standards (OJ L 243, 11.9.2002, p. 1).

⁷ Council Directive 86/635/EEC of 8 December 1986 on the annual accounts and consolidated accounts of banks and other financial institutions (OJ L 372, 31.12.1986, p. 1).

The European Banking Authority has been consulted in accordance with Article 99(6) of Regulation (EU) No 575/2013.

- (6) Regulation (EU) No 680/2014 lays down uniform requirements for supervisory reporting concerning the areas within its scope. Pursuant to Article 99(5) and (6) of Regulation (EU) No 575/2013, Regulation (EU) No 680/2014 only deals with supervisory financial information on a consolidated basis. Reporting of supervisory financial information on an individual basis is outside of its scope; therefore, competent authorities may impose requirements concerning the reporting of supervisory financial information on an individual basis. Having regard to the need to have comparable financial information for significant and less significant supervised entities, this Regulation should lay down the supervisory financial information that should be reported by significant and less significant supervised entities on an individual basis to NCAs. NCAs should thereafter submit this information to the ECB in accordance with Article 140(3) of Regulation (EU) No 468/2014 (ECB/2014/17).
- (7) Pursuant to Article 40 of Directive 2013/36/EU of the European Parliament and of the Council⁸, the competent authorities of host Member States may require that all credit institutions having branches within their territories report to them periodically on their activities in those host Member States. In accordance with Article 2(20) of Regulation (EU) No 468/2014 (ECB/2014/17), branches established in a participating Member State by a credit institution established in a non-participating Member State are supervised entities. Having regard to the need to have comparable financial information for significant supervised entities, this Regulation should lay down the information that should be reported by branches established in a participating Member State by a credit institution established in a non-participating Member State to NCAs. NCAs should thereafter submit this information to the ECB in accordance with Article 140(3) of Regulation (EU) No 468/2014 (ECB/2014/17).
- (8) Article 6(4) of Regulation (EU) No 1024/2013 provides that the ECB shall have supervisory powers in respect of credit institutions, financial holding companies or mixed financial holding companies, or branches which are established in participating Member States of credit institutions established in non-participating Member States. Therefore, branches established in a participating Member State by a credit institution from a third country are not within the supervisory tasks conferred on the ECB. Consequently, these branches should not be subject to the reporting requirements in this Regulation. In addition, branches established in a participating Member State by a credit institution from another participating Member State should be

⁸ Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, amending Directive 2002/87/EC and repealing Directives 2006/48/EC and 2006/49/EC (OJ L 176, 27.06.2013, p. 338).

excluded from these reporting requirements, because they are intended to be applied at the level of the supervised entity that has established the branch.

- (9) The requirements laid down in this Regulation concerning significant and less significant supervised entities, including branches established in a participating Member State by a credit institution established in a non-participating Member State, should be aimed at ensuring that these supervised entities report a common minimum set of information to NCAs and not at imposing uniform reporting requirements. It may be appropriate for NCAs to collect the necessary minimum information as part of a broader reporting framework which they establish in accordance with the relevant Union or national law and which also serves purposes other than supervisory purposes, such as statistical purposes.
- (10) For the exercise of the ECB's tasks, it is necessary to receive financial information from less significant supervised groups, other than those that prepare their consolidated accounts in conformity with the international accounting standards adopted in accordance with Article 6(2) of Regulation (EC) No 1606/2002. This Regulation should therefore lay down the supervisory financial information to be reported by such groups to NCAs. In particular, the formats, frequencies, reference dates and remittance periods and the time limits regarding submission of the information concerned should be specified. These requirements should be aimed at ensuring that such supervised groups report a common minimum set of information to NCAs and not at imposing uniform reporting requirements.
- (11) In accordance with Article 6(2) of Regulation (EU) No 1024/2013, and Article 21 of Regulation (EU) No 468/2014 (ECB/2014/17), both the ECB and NCAs are subject to an obligation to exchange information. Without prejudice to the ECB's power to directly receive reported information from credit institutions, or to have direct access to that information on an ongoing basis, the NCAs should specifically provide the ECB with all information necessary for the purposes of carrying out the tasks conferred on the ECB by Regulation (EU) No 1024/2013.
- (12) In accordance with Article 2(3) of Regulation (EU) No 680/2014, institutions may be allowed to use an accounting year that deviates from the calendar year for reporting supervisory financial information on a consolidated basis. This Regulation should also allow the use of an accounting year that deviates from the calendar year for such reporting.
- (13) The ECB has conducted a public consultation on this Regulation and has analysed the potential costs and benefits,

HAS ADOPTED THIS REGULATION:
